1. (S/NOFORN) The following information was provided during Session CD, as  
SG1A pertains to target subject [REDACTED]  
SG1A [REDACTED]

a. (S/NOFORN) Source stated subject was in a car at [REDACTED] Subject SG1A was startled by something and was looking over his right shoulder through the window of the automobile at a woman in her late 20's or early 30's. Just prior to being startled, subject was manipulating what appeared to be a CB (Citizens Band) or something like it. He was writing with his other hand.

b. (S/NOFORN) When questioned about what he was writing, source stated he wanted to say on a clipboard, but that he felt he had already been told that at a previous time (prior to this session). He then stated there was a blue book. (NOTE: Source was indirectly advised of the clipboard in a previous session when he was asked if subject had a clipboard in his possession.)

c. (S/NOFORN) When asked to pursue the blue book for more information, source stated that it was about 8½"X10" in size, and appeared to be some kind of a reference book of some kind. He stated that he saw the numbers 49 and 3 associated with the book.

2. (S/NOFORN) No drawings were provided by source. He stated during his debriefing that he had a difficult time clearly defining the information from this session and a previous session, which he had participated in. Source appeared to have a great deal of difficulty in reporting information as a result of this confusion.
