UNITED STATES GOVERNMENT

memorandum

DATE: 8 Apr 87

REPLY TO
ATTN OF: DT-S

SUBJECT: SUN STREAK Quarterly Reports   (U)

TO: DT (Dr. Vorona)

1.   (S/SK/WNINTEL) The mission of the SUN STREAK Prototype Operational Group (POG) is to undertake operational intelligence applications using an aspect of psychoenergetics known as Remote Viewing (RV). An integral part of that mission is to train

— SG1J personnel in RV. ███████████████████████████ are responsible for the development and implementation of the in-house training program. Included with the attached SUN STREAK Activities Report is their training report for first quarter of CY 87.

2.   (S/SK/WNINTEL) The SUN STREAK Activities Report for first quarter CY 87 covers the number of training sessions, the number of operations and operational sessions, and the number of Utility Assessment targets and sessions worked for the first quarter of CY 87.

3.   (S/SK/WNINTEL) During the last weeks of the first quarter CY 87, two additional viewers became operational bringing the number of Sources to six. Upon completion of Stage IV training, a viewer is considered capable of becoming operational. Source #079 completed Extended Remote Viewing (ERV) training and Source #011 completed stage IV of Coordinate Remote Viewing (CRV) training. Source #011 will now begin Stage V training with stage VI to follow.

4.   (S/SK/WNINTEL) The output continued to be high during this quarter, despite the fact that one viewer spent five weeks in the hospital and on convalescent leave and a second viewer took five weeks of unprogramed leave. The addition of the two viewers mentioned in paragraph 3 and the return of the office to full strength should make the upcoming quarter the most productive quarter to date.

OPTIONAL FORM NO. 10
(REV. 1-80)
GSA FPMR (41 CFR) 101-11.6
5010-114
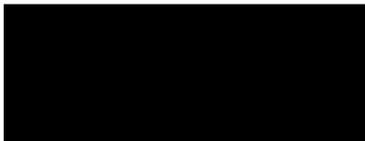

5. (S/SK/WNINTEL) Morale among the viewers continues to be good. The viewers see the work they are doing as being worthwhile and the coming on line of the two new sources has given everyone an emotional lift.

6. (U) The second quarter CY 87 report will be prepared in Jun 87.

SUN STREAK ACTIVITIES REPORT

First Quarter 1987

1. (S/SK/WNINTEL) The following chart depicts the activities of
the SUN STREAK office for the first quarter of 1987. Further
details of the operational effort are considered "close hold" for
purposes of operational effectiveness. Personnel requiring
access to operational details should contact the SUN STREAK
office directly. Further information concerning the Utility
Assessment program is also available from the SUN STREAK office.
Additional information on training is included in the attached
Training Report for the first quarter of 1986.

c. (S/SK/WNINTEL) Training: (U)

Source	Sessions
#003	9
#011	29
#018	3
#021	4
#079	22
#101	2
TOTAL	$\overline{69}$

2. (S/SK/WNINTEL) The attached Type of Sessions chart shows the distribution of sessions over the three basic activities of this office: Operations, Utility Assessment, and Training. Since two more sources can now contribute to Operations and Utility Assessments, next quarter's production should see an increased ratio of intelligence related sessions in relation to training sessions.

TRAINING REPORT

First Quarter 1987

1. (S/SK/WNINTEL) The following charts reflect the distribution of the 69 remote viewing training sessions conducted during the first quarter of 1987.

CRV Training Sessions (TOTAL = 40)

Source #	Stage: Class:	1 A/B	2 A/B	3 A/B	4 A/B	5 A/B	6 A/B	Object	Advanced A/B
003								2	1/5
011				6/23					
018									0/2
021								1	

ERV Training Sessions (TOTAL = 24)

Source #	Type: Class:	Visualization	Beaconing	Object	Site A/B	Advanced A/B
021						0/2
079					5/13	2/1
101						0/1

ARDBA (TOTAL = 5)

Source #	Sessions
003	1
018	1
021	1
079	1
101	1

2.   (S/SK/WNINTEL)   First Quarter Training Highlights (U)

a.   (S/SK/WNINTEL)   Sources #003, #018, #079, and #101 were
dropped from ARDBA training during this quarter. Both source #011
and #021 continue to display a greater-than-statistically-average
ARDBA performance.   ARDBA session scoring criteria and individual
source evaluations are available for review in the unit training
files.

b.   (S/SK/WNINTEL)   The integration of both source #011 and #079
into operations began during the last week of the quarter.   Source
#079 completed ERV training on 13 March.   Performance over 21 ERV
training sessions indicate that the source experienced a breakthrough
towards mid-quarter, after which achievement levels remained
generally high, (i.e., excellent target-related data correspondence).
Source #011 completed CRV Stage 4 training on 26 March and is
scheduled to begin Stage 5 training during the second week of April
87.   Performance over 29 CRV training sessions portray a steadily
increasing skill level, with the concept of site "intangibles"
requiring the most time to master.   Detailed individual session
results and accompanying evaluations are maintained in unit training
files and are available to those who require access.
