

LTC Burby,

at 0745 hrs 23 Apr 84, attempts to report the implications of the Anderson article to Mr Del Toro met with negative results. He called from AHS and said he would not be at FT Meade until later on.

Nancy made an appointment for me to see Fred Neal re: the Anderson article at 1300.

at 0830 I called LTC Flannery and gave him a "heads up" on the Anderson article. I told him:

1. First time old code words have been released.
2. We have not been associated with those code words since the end of FY 82. They are DIA words.
3. The two stories at the end of the article are true but the office was not directly involved.
