and Support Office
Ft Meade, MD 21113

1. (U) Reference:

a. Letter, AFZI-DI-C, HQ, Ft. George G. Meade, 29 August 1983, subject: Designation of Contracting Officer's Representative Contract #DAKF27-83-C-0018 (SRI International).

b. Letter, DELEW-I-LS, IMDSO, 20 April 1984, subject: Contract Administration - DAKF27-83-C-0018.

2. (S/NOFORN/WNINTEL) The contractor has fulfilled the terms of contract DAKF27-83-C-0018. All training was completed on 22 March 1984, but the final evaluation report was not received until 26 June 1984. The late completion was not a result of the contractor's failure to provide contracted services, and a mutual agreement was reached to postpone the training. The delay in training was a result of the trainee's hospitalization. The contractor accomplished the specific tasks outlined in the classified statement of work in an exceptional and timely manner that allowed immediate operational use of the trainee. The reports that described the training and provided an evaluation were delivered on a less timely basis, however, their delay did not detract from the success of the training.

A handwritten signature in cursive script that reads "Brian Buzby".
