Site is an area of open land with green and brown
 as predominant colors. Probably indicating vegetation.
 Structure at site is impressive by it's size.
 Very big.

There is more than one structure at the site. Others are
 low and clustered. There is a ^{wooded} ^{area} at the site
 and it's sandy. There is a ^{partial} ^{wooded} ^{area} associated
 with other structures. "Zachary!"

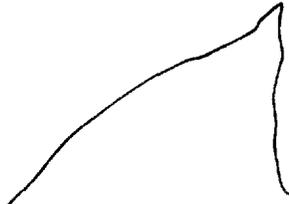

Structures at the site are crumbled and pieces
 are scattered. The site is isolated and
 abandoned by events (AOL). Something
 destructive occurred here. It is not a
 nice place.

Very dry dusty track - ash.
