Ac fresh -  
the sky scene  
next door.

Standing on top of building, which is crowded  
 inside with people (Communists) there is a perception  
 of a large object falling (heading toward the  
 building). It is traveling at a great velocity  
 and is very dense. There is a high-pitched  
 whining sound from the object. The object  
 causes structural damage as there is a  
 crack of the large object crashing through the  
 building. Newspaper headlines tell of disaster,  
 many people hurt. ~~but so long the collapse of  
 fantasy construction.~~
