

Project CY 8609

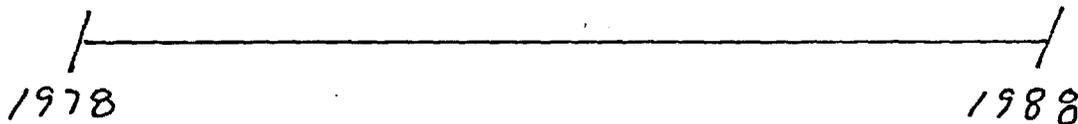

Task

1. Describe the technical facility located vic:

SG1A

2. Within the following ten year period determine if and when any "special events" occur:

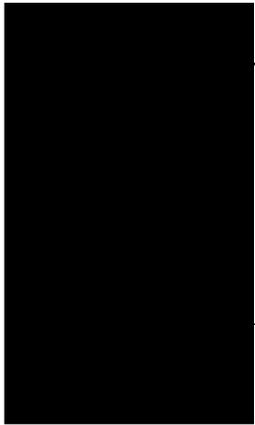

* Note: If you do find any "special events" --- subsequent sessions will be focused on each separate "special event."

SUMMARY:

SITE IS A SEMI-ISOLATED SPOT IN A FLAT AREA OF LAND. TO NORTH SEEMS TO BE MOUNTAINS - TO SOUTH SEEMS TO BE CITY/BODY OF WATER / MOUNTAINS.

SITE IS BOTH ABOVE & BELOW GROUND. MAIN BLDG AT SITE (ABOVE GROUND) HAS RECORDS/FILES, THE PURPOSE OF WHICH SEEMS TO SIMPLY BE KEPT NEATLY.

SITE HAS "LINES" RADIATING FROM IT. THESE LINES CARRY AN AI OF LOTS OF PRIME. THE "LINES" ARE MADE UP OF UNCONNECTED "DOTS". EACH "DOT" SEEMS TO BE MADE UP OF A BASE WHICH TRAVELS ALONG THE LINE, A LONG, ROUND, POINTED "THING" RIDING ATOP THE BASE, AND A CONCEALMENT COVER. THE COVER IS BLACK + ROUGH TEXTURED (LIKE ~~A~~ PILE OF COAL). THE "LINE" SEEMS TO HAVE NO END, EVEN THOUGH IT DOES HAVE STOPPING PLACES ALONG IT.

SITE ON 12/1 HAS.
