S4 1/2

Site is non-U.S.; turbulent climate old history/heritage (AKL BK "like Greece"). New + old intermixed.

general goal

long enterprise

S4 1/2 many people affected. Almost like a populist ~~movement~~ movement - almost like when a large, demographically heterogeneous population begin moving towards a common, large-scale goal (i.e. "like Zionism," or "national liberation," or etc.)

struggle against resistance

S4 1/2 objects ^{rules} & physical manufactures not central. The thrust of it all is more abstract.

Site involves structures in an area that mixes old
+ new in a temperate climate, non-US, - reminiscent of
Greece; Activity associated w/ site included ~~people~~ people,
representative of a large, demographically homogeneous
population moving towards a common, though
imprecise goal. One structure associated w/ site seems
to be open, rounded, large + solid.
