

Project CY 8609

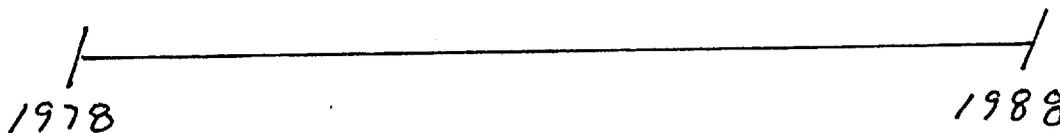

Task

1. Describe the Technical Facility located Vic:

SG1A

2. Within the following ten year period determine if and when any "special events" occur:

* Note: If you do find any "special events" - - - subsequent sessions will be focused on each separate "special event."

STAGE 6 WORKSHEET

SOURCE:	003
MISSION NUMBER:	8609
SITE:	██████████ SG1A
TARGET:	<u>SIGNIFICANT EVENTS (IF ANY)</u>

Handwritten:
Must be
Done that
it's not to be
from now. And caution
must be taken too far
to great a system of the
as to drive to prevent
it from outside so
the people involved who
want to know about
the whole project.

frustrated

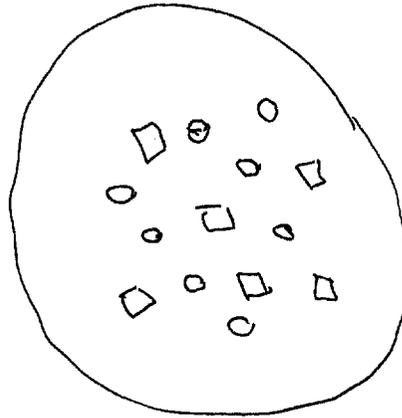

5 4/2 frustrated not because he's being harassed but because things aren't happening at the rate he wants. But he's the type that is long on drive + ambition but short on patience, + even if things happened even faster, it would never be fast enough. "Things" involve other people performing well but interlocking sundries with a finite and concrete conclusion to finally be reached.

54 1/2 what analysts & monitoring agencies would
 pick up as far as outside art. letters &
 device generated phenomena.

54 1/2 indicators - relevant/significant people gatherings
 changes in set, patterns, RF scheduling; ^{equipment} interference
 patterns; power shifting; a/cft operation in
 vicinity.

Site

construction + assembly of some actual device or equipment which is new/experimental, dangerous w/ perhaps weapon potentials + ~~high~~ ^{requires} high power levels to accomplish purpose. Sub assembly trials have taken place, + soon in the future will be a major trial "run" of virtually the whole device. It won't be "finished" yet, but all major portions will be ready for interactive/interconnected testing. It involves meticulous construction + miles of wiring engineering. Caution must be taken to avoid too much "signature" density, she best to avoid unwanted outside attention. Device + ~~is~~ ^{is} ~~it~~ ^{it} ~~is~~ ^{is} located in a structure which is part old (masonry) part new (partially metallic) which has a "science theme" about it, it constructed haphazardly, and may have wings + a courtyard or open area associated with the middle part of it.
