

SECRET/NOFORN - HANDLE VIA SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

2011 Nov 87

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8714

SESSION NUMBER: 2

DATE OF SESSION: 23 NOV 87

DATE OF REPORT: 24 NOV 87 SG1J

START: 1320

END: 1410

METHODOLOGY: CRV

VIEWER IDENTIFIER: ⁰¹¹003 

1. (S/NF/SK) MISSION: No change in tasking: Describe the past event associated with the coordinates 9732/1157.

2. (S/NF/SK) VIEWER TASKING: After reviewing the previous session notes, 011 was directed to turn attention to the moments just prior to the event and to objectify perceptions in Stage 4. 011 was then directed to the source of the event, (a cue which resulted in a move to another location).

3. (S/NF/SK) COMMENTS: A plausible scenario would involve a meltdown/imminent explosion at a nuclear power plant, where a warning would be possible. It is important to note that viewers have never been able to objectify the physiological effects of radiation, ergo a possible explanation for the difficulty experienced by 011 in an attempt to come to grips with what it was that may have killed people.

SESSION SUMMARY

SESSION: 23 NOV 87; 1320-1410

~~XXXXXXXX~~, 011

8714

23 NOV 87

Just prior to the targeted event the color red or reddish-orange is significant. There is the feeling of confusion, panic, and hysteria among the local populace. Also to be found in this area are domestic animals, such as goats and sheep. These animals also seem to be in a state of panic and confusion. There is something in the air, above, issuing a warning, like a helicopter with a loudspeaker. The people on the ground are confused; they don't, or can't understand.

Following this warning, there was a crash-like event, an explosion, a toxic cloud, and death, ^{(AOL-Afghanistan).} There is an impression that this event was an accidental happening, not something that was planned or intended.

The source of this event, or the origin, is located some distance away (see sketch, page 3), with mountains visible in the background. Again, there seems to be a toxic cloud associated with this event. The cause of this event is two things/elements coming together, creating a violent reaction.

At the source there appears to be some kind of man-made structure.

Inside this structure is where the event seems to originate. The color blue,

cobalt blue is predominate, there is a feeling of intense heat, and something

like exploding steam. (AOL-Chernobyl)

PTs - none
A.Vs - none
