~~SECRET~~/NOFORN-SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

CRV Session Procedures Report (S/NF/SK)

Control Number	: 8704
Date of Session	: 06Apr87
Date of Report	: 06Apr87
Source Identifier	: 018

1. (S/NF/SK) Tasking: Original tasking data sheet attached. No change in tasking. Monitor intent was to follow up source's 25 March 87 session.

2. (S/NF/SK) Session: (PI of "ORV envelope"). Source was asked to review his last session notes, particularly the data referencing the unusual, large structure, then to begin session in S4. Monitor attempted to squeeze more data out of this session, but source seems to have been wrung dry. Monitor injected cues: "purpose", "target area", and "director".

3. (S/NF/SK) Summary: Source described structure as having the shape of "an inverted drinking cup". Two areas within the structure were perceived by the source. Inside the first area is a thick, dark, sweet-tasting, foul-smelling, warm liquid. The liquid's warmth was somehow important. An adjacent, but lower, area is lit by both natural and artificial light; it is clean and dry. People are present here who seem to be observing and discussing.

4. (S/NF/SK) Feedback: None provided to source.

REMOVES THINGS, SENDS SOME THINGS BACK OUT,  
AND W/ FEEL THAT THE STRUCTURE, ITSELF,  
IS IN MOTION (MOVING).

(11)

INTONING

SUMMARY: STRUCTURE SEEMS TO HAVE ~~THE~~ SHARP  
~~FEATURES~~ OF AN INVERTED DRINKING GLASS, INSIDE  
IT THERE ~~ARE TWO~~ ARE TWO AREAS WHICH ~~ARE~~ ARE SECTORED OFF  
FROM THE REST. ~~TO BE NOTED~~

INSIDE THE FIRST IS A THICK, DARK  
LIQUID WHICH IS WARM. THE WARMTH IS  
SOMEHOW IMPORTANT. THE LIQUID IS ~~THE~~ SWEET,  
BUT VERY POOR SMELLING.

THE OTHER AREA IS LIGHT, CLOUDY,  
BRIGHT & DRY. PEOPLE MEET IN IT. THIS AREA  
SEEMS TO BE BOTH BESIDES THE OTHER, AND AT  
A DIFFERENT LEVEL THAN ~~THE~~ THE FIRST.

SESSION END 11:10 HRS.
