The site is small body of shallow, gritty, dirty, bitter, fresh (not salt) water in a wide area of flat, open, brown and tan land. The air is warm. In the far distance, to the northwest is a range of large hills or mountains. Far to the east is a large body of water. Far to the south is another large body of water that has land on the far side. This area is in the northern hemisphere and the people there are tan-skinned. The area is not in the northern portion of the northern hemisphere.

1. (S/NF/SK) MISSION: Describe/determine the eventual fate and/or 
2. (S/NF/SK) VIEWER TASKING: 095 was not informed that the target had been previously worked; only coordinates (Stage 1) were initially provided. Since it was important to the monitor to identify the impact area, 095 was directed to ignore the 'curving across' ideogram and to focus upon the 'land.'
3. (S/NF/SK) COMMENTS: Much better signal line contact than in previous sessions against this target.
4. (S/NF/SK) EVALUATION: []
