SUMMARY OF INFORMATION

During today's session, I first received an image of a ball.

I then had an image of either a statue or an individual standing on the ball holding her hands up and she may have been holding another ball.

I then could see an individual sliding down a slide or a hill.

I then could see two mountainous peaks with a valley connecting them.

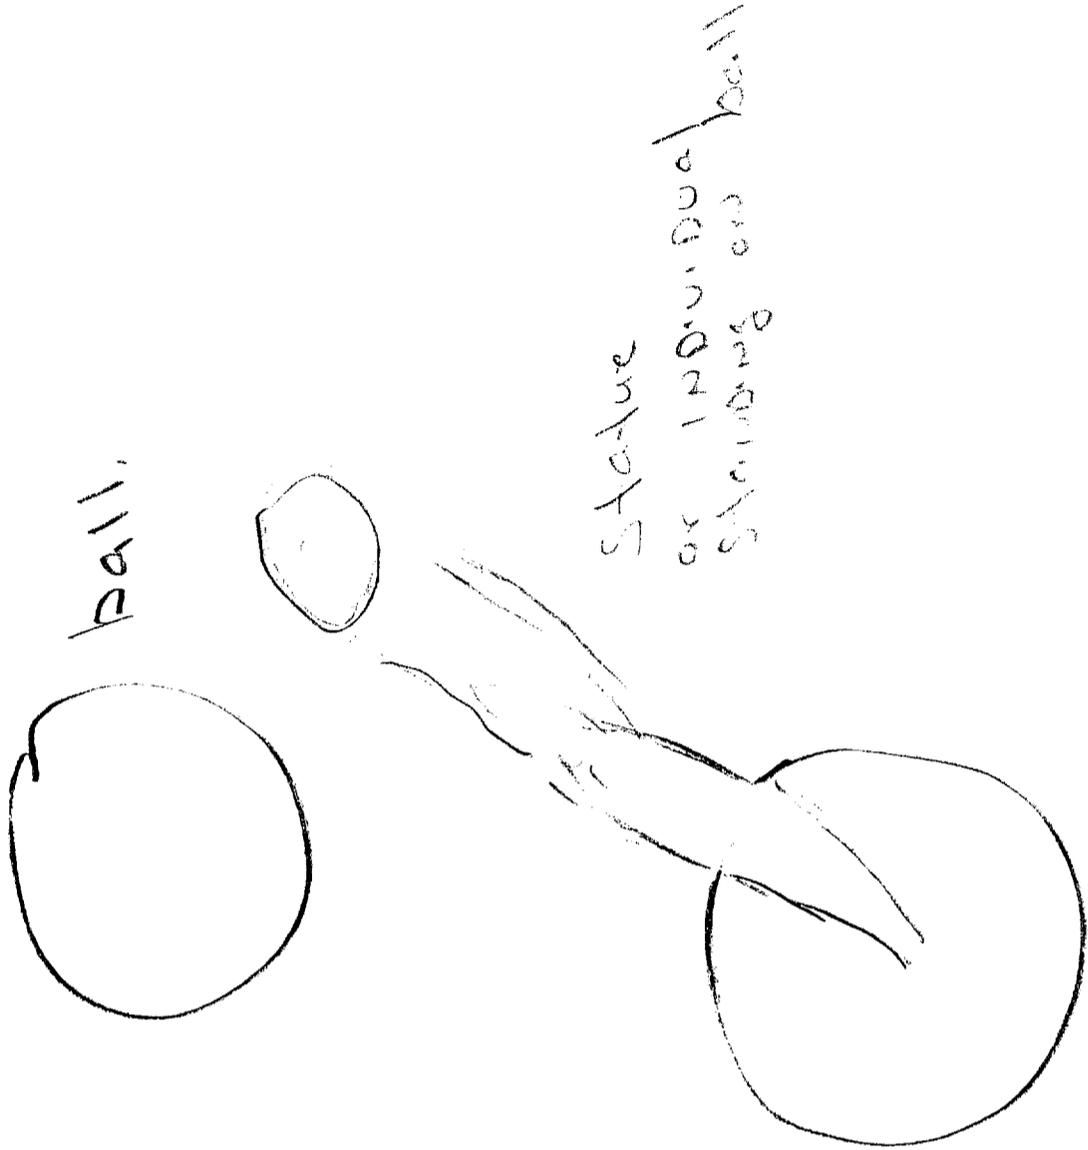

I then could see a structure that was big. It was long in the front and then came to a square and then continued out to be long again. On the square portion of the structure, there were two big white emblems or signs. The structure was hollow inside.

At times it seemed as though there were holes in the ground

- The only concept of activity here was the individual sliding down a slide or a hill.
