SUMMARY OF INFORMATION

During this session, I first saw a big square structure that was red brick. The activity here seemed to be happy and gay.

I then could see people standing at some type of machines and they were pulling levers downward. The machines and people were in a row. It looked as though the people were enjoying themselves. People come here for service.

I then could see an object that was round and had smoke coming out of it. People were with the object and they were pushing it forward.

I then could see men sky diving.

I then could see a young lady in some type of store and she was looking at a mirror and dresser. The dresser was in dark wood and it was beautiful.

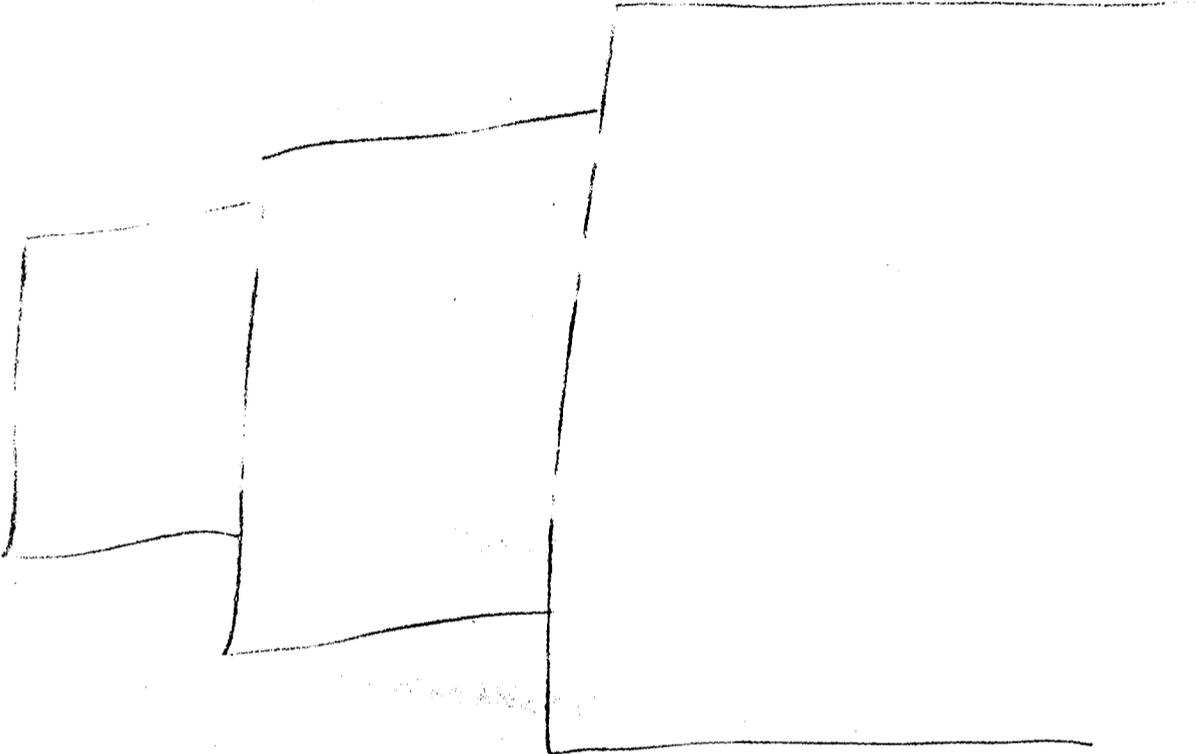

Overall, I felt that the site was beautiful and it reminded me of a resort.

I could see an object that was spraying something outward.
