SUMMARY OF INFORMATION

During this session, I could first perceived ~~two~~ two rather round objects that seemed to look like a piece of art. These objects were blue. They may have been emblems of some sort and I had a Japanese feeling.

I then could see an oblong object that looked like a chair. The chair was glazed and it was big. The chair looked like it was rather ornamental.

I then could see people outside and they were dressed casually. Some of the people were dressed like cartoon characters. At this point, it seemed as though I was at an X Amusement Park.

I then had a feeling of flapping or turning and this feeling may be associated with an object or a structure.

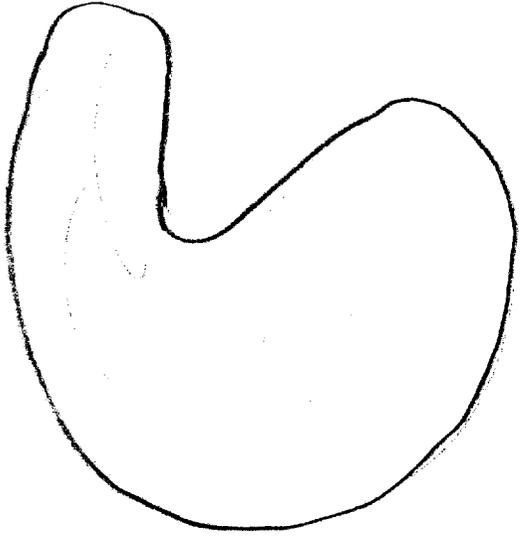

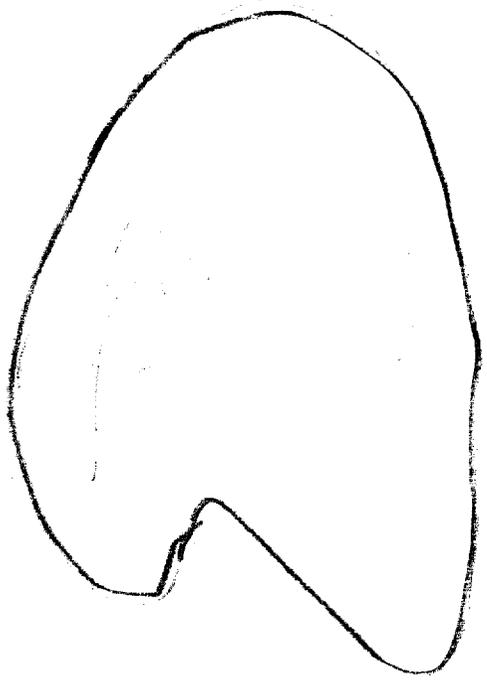

I then could see a large square structure.
