1. (S/NF/SK) MISSION: To determine and describe the key functions and supporting activities of a target consisting of structures represented in overhead photography.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 623826/696347 only to begin.
3. (S/NF/SK) COMMENTS:
  - a. Inclemencies: Tired.
  - b. 095 restarted from Stage 1, to be certain yesterday's AOL was averted. 095's work habits indicated excellent site contact. The site's physical aspects and function were addressed. Once again, strong AOL drive was encountered, so the question of site activity was postponed to a follow-up session.
  - c. Summary of Information enclosed.

SUMMARY OF INFORMATION

The site is a series of structures in a foreign country. The site is a small military compound of less than 2000 people. Uniforms are very dark in color. There is a large several story building with some offices in it. In front of this building are a cluster of mobile military weapon structures. These are black and have an unusual dimensionality to them--lots of non-90 degree angles. These weapon "structures" are identical and are the only type of weapon besides small arms in this compound. These mobile weapon "structures" are <sup>not</sup> past the R&D and experimental stages but are not deployed "out front" to use a US analogy it is as if these weapons are in a small base in Kansas but not in Germany or Korea. A sketch of the area is shown. <sup>(p.8)</sup> The area where the compound is, is leveled off --flat and brown. Nearby the landscape is steep. Somewhere in the area is a flat, paved off area like a tarmac/ (S-7)"tamarack." The air is cold.

TASKER

1. PROJECT : 8915
2. Encrypted coordinates: 623826/696347.
3. Tasking: "The target site consists of structures represented in overhead photography."
4. Required EEI:
  - a. Determine and describe the key function of the target site.
  - b. Describe the activities taking place in support of the key function.
  - c. Provide an overhead perspective of the target site; submit sketches in support of findings.

(SEE OPS FOR THE CONDUCT OF A SEARCH IN THIS PROJECT ONCE 4A THROUGH 4C HAVE BEEN SATISFIED.)
