PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	8905	SESSION NUMBER:	01
DATE OF SESSION:	13 FEB 89	DATE OF REPORT:	13 FEB 89
START:	1012	END:	1112
METHODOLOGY:	CRV	VIEWER ID:	095

1. (S/NF/SK) MISSION: To access and describe three target structures shown in overhead photo imagery.

2. (S/NF/SK) VIEWER TASKING: "Access the target site at encrypted coordinates 166997/496912 and describe."

3. (S/NF/SK) COMMENTS:

a. Inclemencies: Chronic cough.

b. 095 correctly identified the site as consisting of 3 buildings. Investigation proceeded by labeling the buildings 'A', 'B', and 'C' (without 095 knowing which was labeled which). 'A' and 'B' were addressed during this session. A slight amount of physical AI was reported during this session, but could not be identified.

c. Summary of Information enclosed.

4. EVALUATION:

Structure A:

Site is a long, narrow building of block construction with a flat, bumpy roof. It is an older structure about 5-6 stories tall. It is in a area where the air is smoggy and there are lots of car sounds. In the front of the building is a open, paved area where cars are not allowed like a wide sidewalk/plaza. Associated with the purpose of the structure is the perception of mid-level military administration: nothing of any real intelligence interest.

Structure B:

This is newer than structure A. There is construction (not original) taking place inside. Something is being built: lathes and drills are being used. The construction will allow the expand the capability of the structure.

There is a older man (60-70) associated with this structure who is a true bureaucrat. He is pleased that the construction is getting done because it is another improvement/accomplishment that he can add to his "support form."

WORKING PAPER

13 FEB 89

TASKER

1. Encrypted Coordinates: 166997/496912.
2. Tasking: Access the and describe the site of tasked intelligence interest at the above encrypted coordinates.
3. Required EEI:
 - a. Determine whether one or more of the targeted structures is of intelligence interest.
 - b. Describe the structure(s) which (is/are) of interest.
 - c. Determine the key purpose of the structure(s).
 - d. Detect and describe any supporting function(s) and activity(ies).
 - e. Detect and describe any event(s) of intelligence significance related to the(se) structure(s).
 - f. Access a knowledgeable personality at the site and determine his/her awareness of the key purpose(s) and supporting function(s) at the target site.
 - g. Using the method of your choice, find the geographical location of the target site.
