26 OCT 90

DT-5

SUBJECT: SUN STREAK Interim Report - 90104-E (U)

THRU: DT-5

TO: DT

SG1A

2. (S/NF/SK) Remote Viewer 049 perceived the presence of and undetermined number of US hostages in an area southwest of Hadher, and west of Wadi Tharthar, Iraq (IZ), at geographical coordinates 35 20 N / 42 00 E. See copy of strip map at TAB A. A second group of hostages, number undetermined, were located west of Qasr Al Khubbaz and east of Wadi Hauran, IZ, at geographical coordinates 33 20 N / 41 40. The "greatest number of hostages" appeared to be detained in the vicinity of Rumaitha/Ramantha located south of Baghdad at geographical coordinates 31 35 N / 45 20 E. The hostages have neither been tortured nor have they been well-treated. Families are often separated; some men have been placed in small, dark, restrictive areas. A building with four large tower-like poles and located near a large archway appears related to the hostage issue. The concept of a "central prison, a fortress," also appears pertinent. Viewer 049 also accessed a place that is predominantly green with a number of narrow hallways and contains

numerous objects which form walls or barriers. This tunnel-like complex appears to be partially underground. Viewer 049's summary is at TAB B.

(OPS COMMENTS: 049 was unable to access the hostage situation in Kuwait.)

3. (S/NF/SK) Iraqi intentions revolve around the release of the hostages through negotiations. A group of hostages was perceived as being kept in a long, narrow, thick building with a long walkway. The building is reminiscent of a memorial/museum/embassy. The outside walls to the building are made of white brick. A second structure associated with the housing of hostages, appeared to be a tall, yellow, building with a domed roof. The building is a religious building, a mosque or a church; a main road crosses the front of the building. The hostages located in Kuwait, are located in the vicinity of geographical coordinates 29 15 N / 47 25 E; and in the vicinity of geographical coordinates 28 40 N/ 47 50 E. These locations are reflected in a copy of a strip map along with conceptual sketches and a session summary at TAB C.

(OPS COMMENTS: Information provided by 079 relates to the hostages located in Kuwait. Viewer 079 furnished no information on the hostages located in Iraq.)

Summary of Information

TARGET GROUP #1:

There is an overall feeling of redundancy associated with the target. Replication and duplication is paramount with this group of individuals. There are stacks and alignments of differently shaped objects. A sickening, sweet smell and a smell of mustiness and dampness is apparent. The group is tightly knit but distrustful of anyone who is not part of the "inner circle". They are a group within a group and are almost independent from their higher ups. A main or primary individual is arrogant, hateful and stoic. He is surrounded by 6 or 7 first level subordinates. There appears to be a number of different "cells" which are separated and widely scattered. The members of these "cells" are distrustful, secretive and appear to be waiting for guidance. Something is peculiar about the first group of individuals in that they really don't belong where they are currently located. There is a sense of absolute control, separation and compartmentness. One member of this group is overly preoccupied with a female member of his family. This group's security and sanctity is based on old equipment and

~~SECRET~~ NOFORN

~~SECRET~~ NOFORN

possibly outdated plans and/or operations. Supplies are becoming harder to get and there is less ease with movement, especially by train. This inner group is highly secretive and impossible to penetrate. There is some sort of major contradiction associated with this group: it is either planning vs. reality or planning vs. operations. These individuals are very paranoid and frightened. They are extremely preoccupied with their own security.

TARGET GROUP #2:

There is a sense of staging and/or preparation by the second target. It is felt that their movement will be by water. This group will wait to respond to any action. They do not want to be in Kuwait (i.e. mixed-in) with the other line units. They will wait for those units to get wiped out by opposing forces before they make their move. This group will deploy westward from the ocean and move into the central coastal area of Kuwait. This group is now positioned within two areas along, and north of, the Kuwaiti-Iraqi border.
