E. SESSION SUMMARY:

SG1A

The [redacted] will move between the AM of 3 DEC 92 and the PM of 5 DEC 92. I still perceive the destination to be the airport south of CHICO, WA.

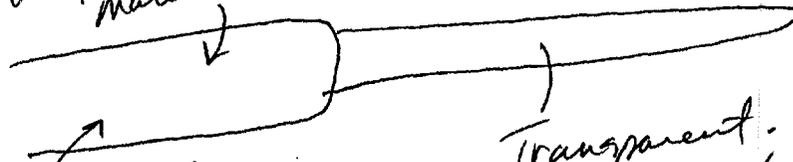

SG1A

There will be both radio and visual communication when the [redacted] is due west of POINT GRENVILLE, which is north of GRAYS HARBOR and the city of ABERDEEN, WA.

There is the concept of an enclosed body of water reminiscent of a lagoon or pond associated with the vessel. The water is almost black and I can see the reflection of a building with a square tower on the surface.

Perceived an U/I object during Stage I (see diagram below).

Very hard material

*Transparent - dull finish
white plastic or fiberglass.*
