Summary of Observations

The ships in port are red, black and blue in color. A white vessel is in the poorest condition. Fishing vessels and work related crews are among the group.

The little red one is for the purpose of fishing at sea. *This one is the first to leave port.* Some of these vessels are currently carrying drugs.

A large blue vessel which carried a super speed is associated with drugs and will leave this port zone on Thursday at 10:30.

This vessel is not as large as the black one. Please see attached sheet for basic description of [redacted]
