S3 SUMMARY: SITE IS A STRUCTURE MADE OF
~~STATE~~ MATERIAL LIKE SANDSTONE. TERRAIN IS FLAT,
AND SIMILAR TO STRUCTURE IN COLOR &
(MAY BE) MATERIAL, STRUCTURE IS TALL, ROUND,
SOMewhat DOME, ~~SO~~ (FLATTENED DOME). MATERIAL IS
VERY SOLID. Hollow SOUND. PLAIN, FEATURELESS.
STRUCTURE, REALLY WIDE.

1335

Like giant chessmen, mud-brick pigeon towers dot the landscape near Isfahan (following pages). Built in the 17th century by melon farmers, each of these avian high rises collected and stored natural fertilizer from as many as 10,000 live-in pigeons, which raided outlying wheat fields. Today, their glory years ended by chemical fertilizers, the towers are neglected and largely empty.
