PROJECT NUMBER: 8806 (WRV Training)   SESSION NUMBER: 01

DATE OF SESSION: 880901   DATE OF REPORT: 880901

START: 1300   END: 1410

METHODOLOGY: WRV   VIEWER IDENTIFIER: 025

---

1. (S/NF/SK) MISSION: Access, describe and identify target
(Terry Waite). His location and present situation.

2. (S/NF/SK) VIEWER TASKING: Describe person, location and his
present surroundings.

3. (S/NF/SK) COMMENTS: There were no physical inclemencies
noted. The session was conducted under good conditions in the
Garden Room. 025 did verbalize in single words and short phrases.
025 obtained a good bit of data in describing the target person.
Verbalizing is coming in more and more in each session. When
asked for the name, 025 tried phonetically and had a successful
try but analytically disgarded information thinking it was not
pertinent. 025 seems to be comfortable with the methodology and
relaxes as she gets into the sessions.

4. (S/SF/SK) EVALUATION: 3

Purpose of session was
review of facilitator calibration
