SUMMARY OF INFORMATION

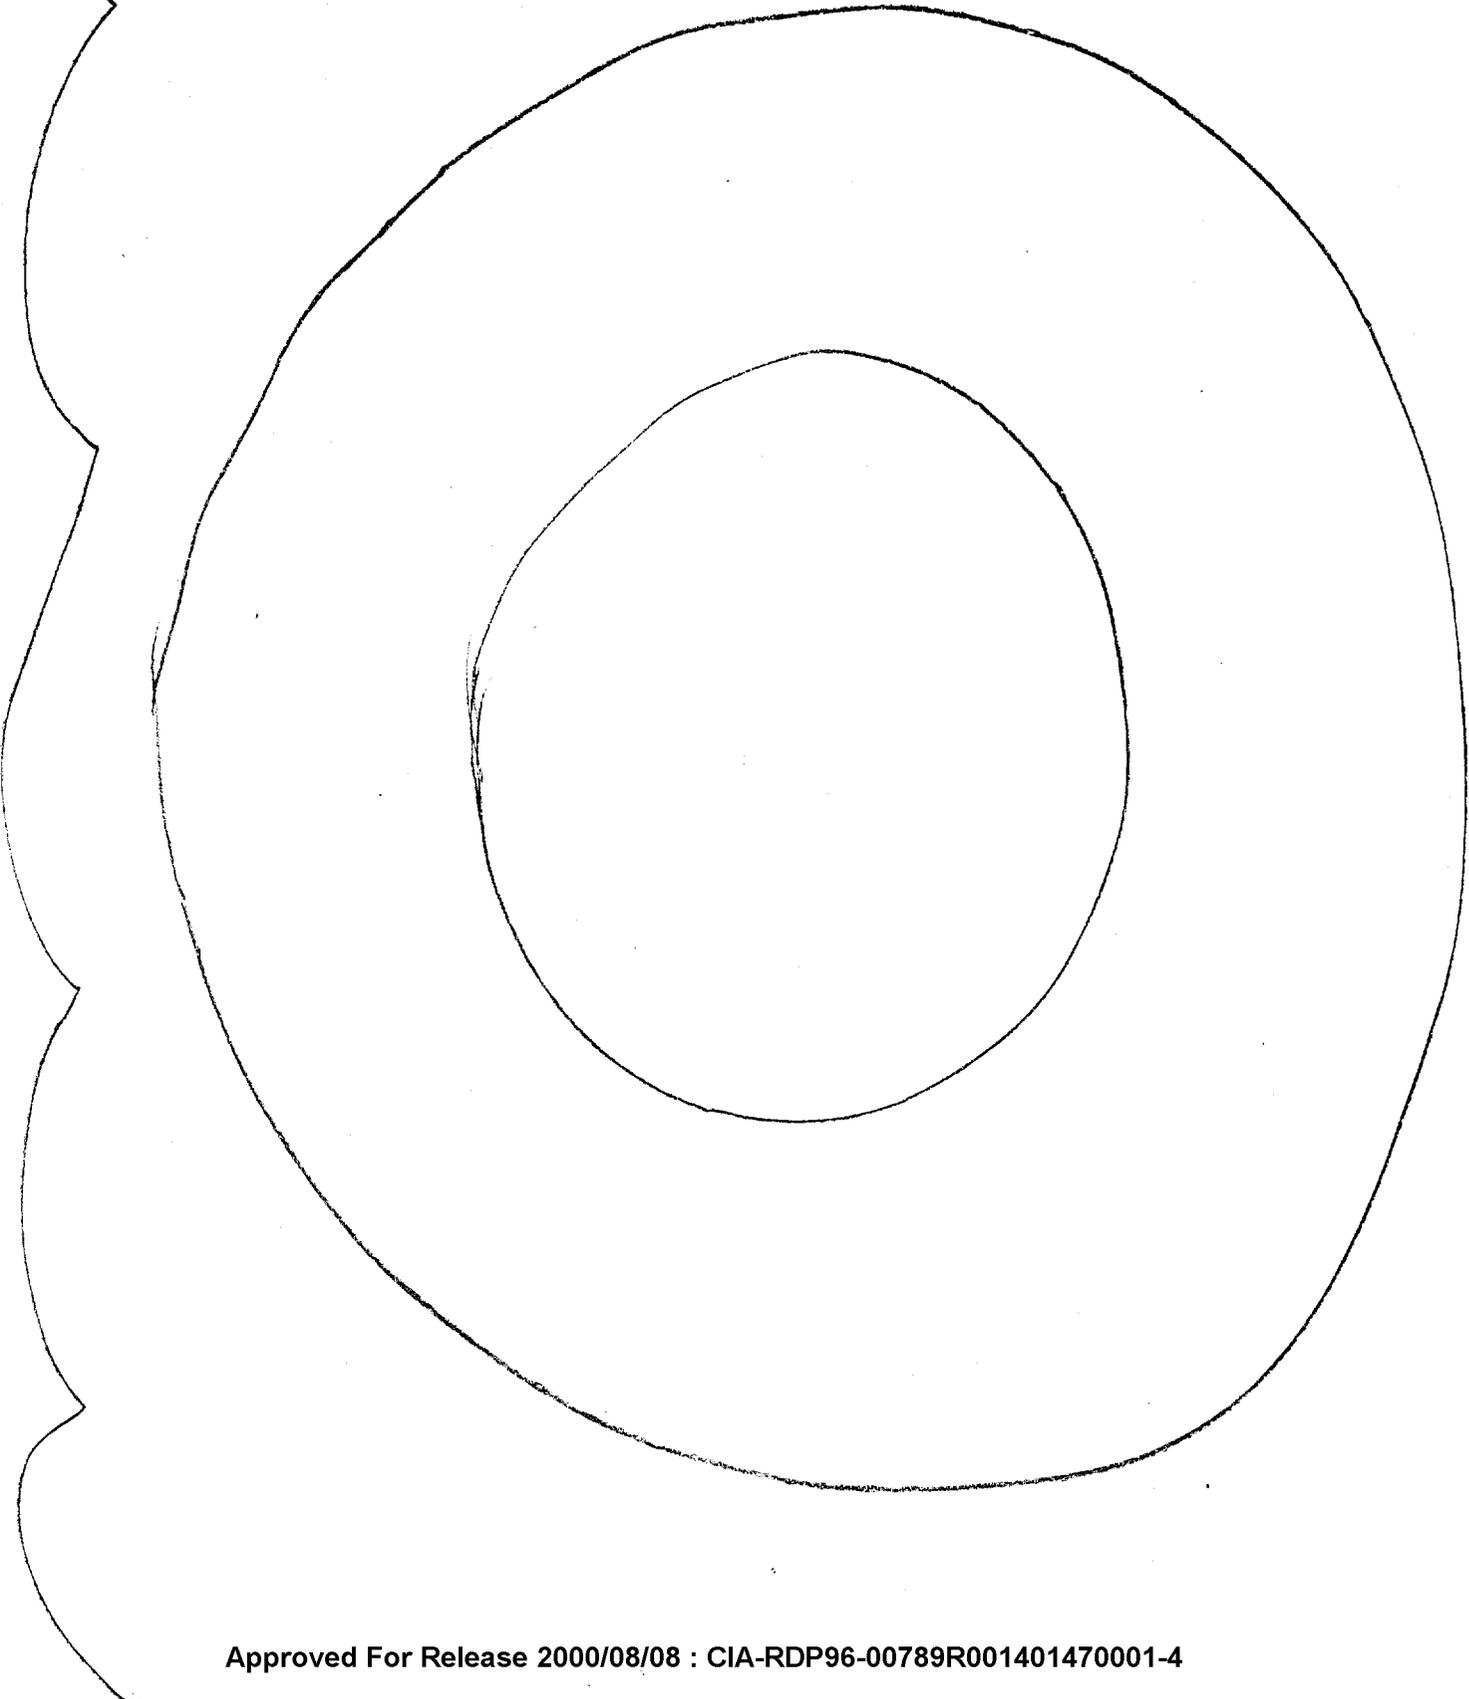

A car race track is nearby in an open area (sketch is on page 1). The object has a triangular portion and has an inner and outer circular metallic frame (sketch is on page 2). The colors associated with this object are white, silver, black and blue. AOL-canteen. Looking out of the windows, there is a very bright light which shines outward and downward to the bottom (sketch is on page 3). I was ~~submerged under water~~ in a long cylindrical object "leagues" which is air limited. This ~~water vehicle~~ has propelled generated motion and can turn. ~~submarine~~. People are inside the capsulated object. There are screens in the front on the inside which note sound waves. This object is big and cruises along at a ~~low~~ rate (see sketch on page 4).
