SUMMARY OF INFORMATION

Poor people are working in an open field which has brown mounds in the background (page 1 sketch). A white building (historical architecture) has a pediment without statues. On the inside, there are arches, mats on the floor, a painting, and a black figure. AOL monument (sketch is on page 2). The man associated with this target is not alive now. I have an image of an older man who is balding in the back. Religion was important to him and there is a symbol associated with this person. He had ~~political involvement and was part of a societal movement wherein radical changes took place because of his leadership (podium).~~ See sketch on page 3. ~~The emphasis was on equal rights and the masses were affected.~~ This man served humanity ~~presidency~~ and was interested in creative foundations. The individual reminded me of Abraham Lincoln and the North and South war (capitalism). Circular land is featured on page 4.
