THE YEAR 1071 was a bad one for the
 Byzantines, East and West. At Man-
 zikert, in the highlands of eastern
 Turkey, the multinational Byzantine
 Army, riven by dissensions and desertions
 and for once sloppy in reconnaissance, was
 annihilated by the invading Seljuk Turks
 it had marched east to destroy. An tolu

Bari, sacked by the Normans after a three-
 year siege. Five years after the Battle of
 Hastings in England, the Normans had con-
 quered southern Italy.
 The year 1204 was even worse. On April
 13, Fourth Crusaders en route to Jerusalem
 committed what historian Sir Steven Runci-
 man called "the greatest crime in history,"
 the "Christian sack" of Constantinople.
