1. (S/NF/SK) MISSION: Access and describe the target at Encrypted Coordinates 444901/402988. Continue to emphasize need for overhead perspectives of mission target areas.
  
2. (S/NF/SK) VIEWER TASKING: Access and describe the target at Coordinates 444901/402988. Maintain a perspective, the vantage point that will allow to provide an overview of the target area. Time permitting, access and describe people, activities, and structures at Area "A".
  
3. (S/NF/SK) COMMENTS: No Inclemencies noted. Session was monitored by a third person. From sanctuary, 095 ended in a black area which was told to dissipate in grey and then meaningless smoke. Viewer 095 did this successfully. Viewer 095 experienced heavy aesthetic impact and AOL of "little cities"; 095 was encouraged to declare impact and AOL, to include AOLS and AOL M. Area "A" was described as "very bright"; the brightness did not abate. The session was terminated at this point. Ensuing session will use Area "A" as a continuation and launching point.

ERV TRAINING

Site was highly patterned land, patterned with rectangles. The top of one of the rectangles was covered with rough gravel and had a sharp, defined edge. (see drawing 1). All this was in an ADL/S "city". There were also very square buildings, made of blocks or having a large block pattern on them (drawing two). In the center of the first patterned area was a drop with steep, flat hard sides with water at the bottom. There were paths in this city that people walked along in small (4-5 people both young and old), highly cohesive (strong feeling of belonging together) groups. These small clumps of people scurried along the paths. At area A, I experienced looking at something very bright and hot that it burned my eyes (A!!!). In area A there was a man dressed in white. In area A there also was the structure. Inside the structure it was dim and cool. There were lots of cool smooth tiles. The ceiling was very high almost domed. There were men standing there and they had a feeling of reverence. (ADL mosque/cathedral). There was a constant pulsing, low roaring sound, that I only heard when I paid attention to it. Either in or near the structure there was a basin/ bowl/pool of water.
