1. (S/NF/SK) TASKING : Same as ~~Stage 1~~ ^{monitor 099}, combined with ops officer feedback ~~from ops officer~~ from ~~the~~ session #1.

2. (S/NF/SK) Source's session #1 transcript was placed upon table in front of source. ~~After source~~ Source told monitor that he remembered the ~~target~~ ~~area~~ site/session. He was then provided the same coordinates (encrypted) ^{again} and proceeded from Stage 1 ~~area~~ to work the site in the usual manner beginning from Stage 1.

3. (S/NF/SK) Summary: ~~Area~~ (see Stage 6 map also). Site is composed of various structures around an open area, evincing a 'contourment' feel. Structures (including others perhaps not site-connected) are located in a wide, low-relief area ~~with~~ (probably) surrounded by farming fields / activity.

'c' cont.

A body of water is nearby over which people at site may have to pass to arrive at objective. *Alin*

4. (S/NF/SK) FEEDBACK: Ops officer provided all available feedback to monitor who, in turn, immediately provided same to source.
