E. SESSION SUMMARY

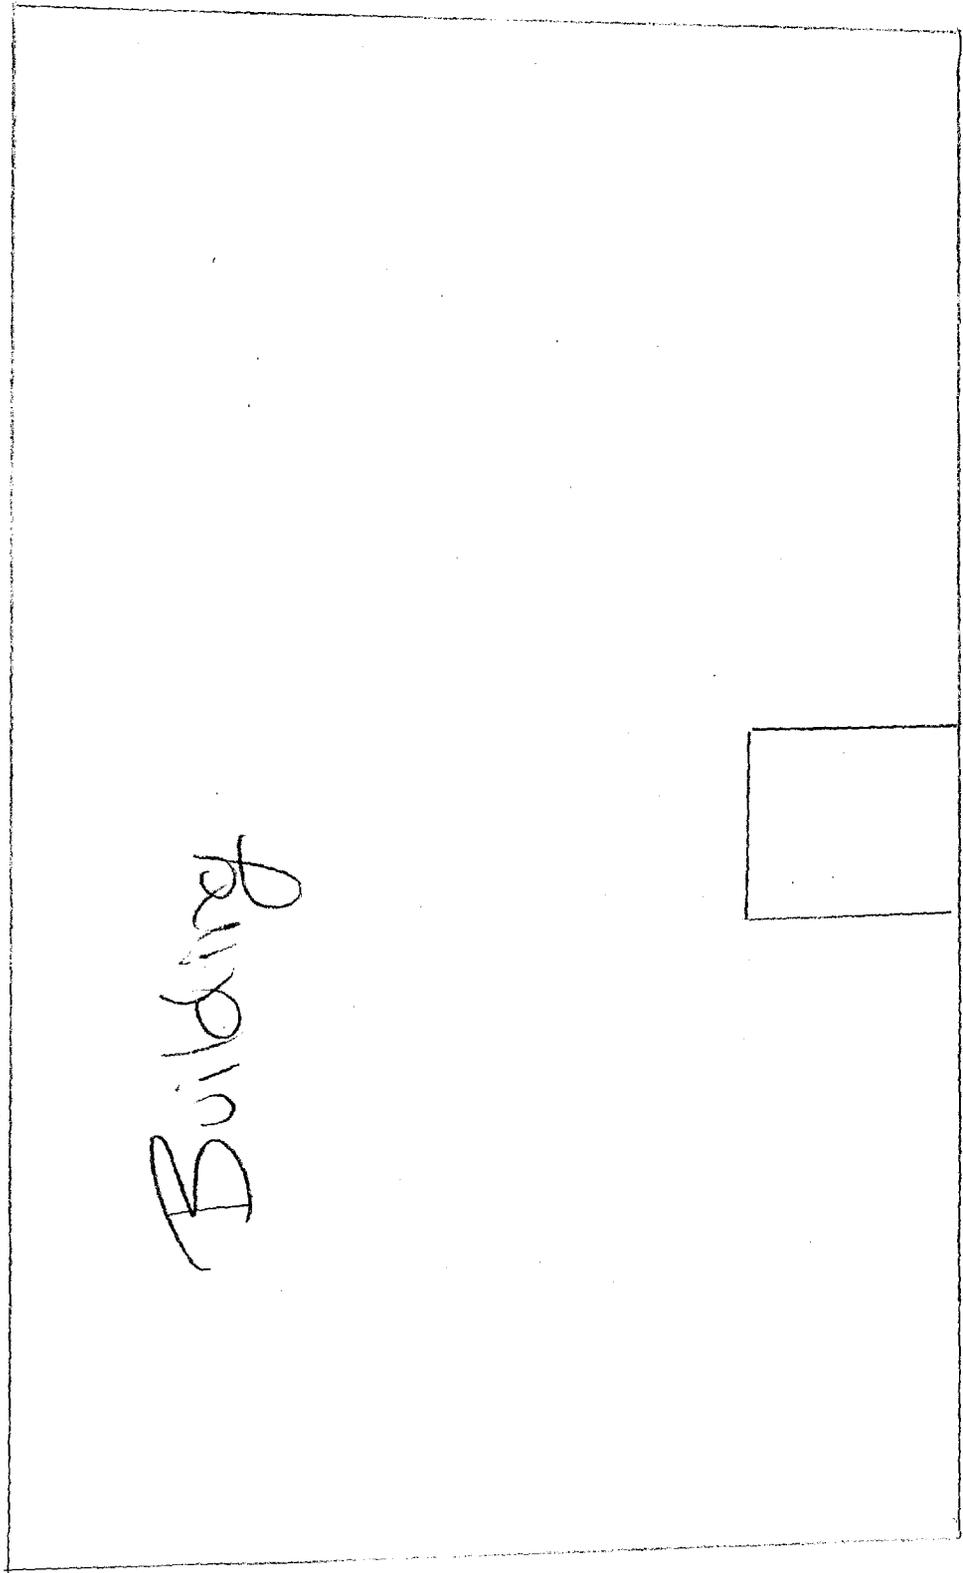

The target is a red building with stairs. This building stands alone and is in good condition. It consists of several floors and can be viewed from a car. Roads, white trim, greenery and a fence can be found at this location. A double combed pattern is present (See Sketch). There is quite a lot of movement and activity on the premises. This can be considered a somewhat historical structure wherein people come and go. This target is in a vicinity not too far from an airport. Flat, black top and white concrete roads / surfaces, are prevalent in the area.
