E. **SESSION SUMMARY:**

There are two individuals who are constantly talking to the point of anger. The emotions are extreme and confrontational. There are rib-like features associated with a downslope and an overhang. Exposed sandstone occurs.

There is an object that is reminiscent of an extended bird's wing. Another object has a flat, curved surface and is layered. There is a "globular" movement and bright greens, reds, blues and yellows. There is a dark green, "L" shaped feature that is bumpy and is reminiscent of a hedge or shrub. A specific locale contains a number of chairs in disarray.

A curved wall-like feature composed of stone or cement sits near a ledge or drop off. There are ocean waves in the background. There is a feeling that it had recently been stormy in this location. The surroundings feel lush; almost a rain forest feeling. There is a cliff face with a city-like setting below and in the background.

There are fin-like features present and several red lights throughout one section of the scene.

Consider the following attributes and their definitions (where provided). Please indicate whether or not each of the attributes listed below is a *primary* part of the target for the trial number marked above. By "primary" we mean that the attribute is important for defining the overall ambiance of the target. Mark the "yes" box if the attribute is a primary part of the target or mark the "no" box if it is not.
