Pursuant to paragraph 1, Block 10, Preparation Instructions", the contractor shall prepare documentation of the results of this effort as follows:

TECHNICAL REPORTS

- a. An interim technical report, shall formally document the efforts and results of the period and at the date specified in the Delivery Schedule.
- b. A final technical report shall formally document all efforts and results of the project and be delivered as specified in the Delivery Schedule.
- c. The text of both interim and final technical reports shall be submitted to cover periods and at dates specified in the contract, and shall consist of the following technical elements in the order given:

(1) Summary - The summary shall serve as an indication to a potential reader of the content of the report. The summary shall be an accurate reflection of the substance of the report. It shall be brief, clear, and complete; and shall contain, as a minimum: a statement of the purpose of the work, the methods used, a summary of results, and conclusions.

(2) Preface - The preface shall contain statements to indicate authorization for the work, numbers and titles of the project/task/subtask under which the work was done, the relationship of the work to the overall program; acknowledgment of the contribution of others not listed as authors; references (publications, lectures, conferences, reports, etc.); individuals contacted (names, title, organization, address, telephone number, etc.).

(3) Copyright permission - Copyrighted material shall be used in the report only upon written consent of the copyright owner. If copyrighted material has been used, a statement that permission has been obtained to use such material shall be included in the preface. It shall be the responsibility of the Contractor, prior to his submission of the final manuscript, to furnish a listing of all data used in preparation of the manuscript. Although a copyright check may be performed as part of the Government inspection, failure on the part of the Contractor preparing the report to list all data used in its preparation shall be considered a latent defect and the Contractor shall not be relieved of his responsibility for any copyright violation(s).

(4) Body of report - The body (or text) will be determined by the nature of the work being reported. In general, the body should include: a statement of the problem, the background, approach to the problem, results, discussion of the results, conclusions, and recommendations.

(a) Introduction - This section shall state: the purpose(s) of the contract, a breakdown of the problem into component parts, a reference to programs related to the purpose, and the scope of the work during the period covered. Each concept considered shall be identified in this paragraph.
