

- WE crucial to world endeavors

- ME - strength -
- other areas

- We must ~~oil~~
+ US not produce its own oil
+ too dependent on ME.
- Mexico cannot be trusted
Self supply
- Oil reserves in Central America

3. Point of disagreement

+ Political part of Int. (POT)

+ Man I C pol too fast

something for matching

NATURE of POLITICAL ISSUE -

- MIC - Elements not trust in future move
- wanted something for now
- right to be able to receive, dominate, control, a certain segment of the water population.
- ~~want~~ too greedy
- expected fast results
- ~~Regional~~ ~~Transparency~~

MAN O I

- / chys would eventually come

missile seeking base

- generating energy
definitely +

- atomic weapons will

man of interest he does

no report too much

BRENNON

- future race bet USSR + us will be in atomic
weapons - must be stopped -

- Energy - study - use of it of great
concern -

- man of interest - does not seem to know
extent or the impact - what is being given
to scientist

Brennon -

neutral - not very powerful -

info

offer services -

— good they would wait

— not wish to war.

— if run smoothly — go very well

→ Victory with in military,

Controlled state in a structure.

→ International Implications

M I C p

Ntl level policies →

4 — Energy inside

not build

actually energy inside —

— not makeup or buildings — but the energy

— Energy how it can hurt or destroy

— not

— Control

— Elements — Components of elements

Brennan -
+ tells it like it is -
+ not look for glory
+ Group of milder people

Oman

Middle East proceeds need time
why negotiater oil not resume
at faster rate. With ME trouble
not peace - doubt, frustration,
