PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	8907	SESSION NUMBER:	03
DATE OF SESSION:	14 MAR 89	DATE OF REPORT:	15 MAR 89
START:	1302	END:	1342
METHODOLOGY:	CRV	VIEWER ID:	032

1. (S/NF/SK) MISSION: To access and describe any activity of special interest inside a target structure shown in overhead photo imagery.
2. (S/NF/SK) VIEWER TASKING: "The coordinates stand for the inside of a target structure of special intelligence interest. Access and describe any activity of special interest inside the target structure designated by encrypted coordinates 130862/141105."
3. (S/NF/SK) COMMENTS:
 - a. Inclemencies: None reported.
 - b. 032 was not informed that 032 had worked this target before for another monitor. This session's perceptions, however, were very close to the ones previously gained.
 - c. Summary of information is enclosed.
4. EVALUATION: 2

3 encl: Viewer's summary

SUMMARY OF INFORMATION

Site is a room inside a structure. This room is long, has a normal height ceiling, is carpeted, and has a long table with numerous chairs positioned around it. The table in the room is very large and heavy (AOL conference table, see sketch on page 3). The room has an entrance at one end of it and there are many screens or charts inside the room which are used by the occupants (see sketch page 4).

There are hallways outside the room leading to different places in the structure. Inside the room there is a lot of commotion -- movement. There are people arguing, discussing something, having a conference. There are decision makers and followers in the room (approximately 12 - 15 people). There is a man standing at the head of the table pointing at something. The room is filled with smoke or haze -- but I can smell it! The people in the room are cold toward each other -- they work together, but they often disagree on things. Because of this tenancy to argue they have developed a tremendous dislike for each other.

The followers in the room are not happy with the directives of the man standing (he is a leader). The man is pointing to something on a chart (see sketch page 9a). The people in the room are technicians of some sort, program developers, scientists, experts. They are very intelligent; but, each of them has their own idea as to how things should be accomplished -- the who, the what and the how. Buttons, computers and screens are all related to the people.

By exploring the purpose of the object in the chart I received perceptions of: a point of entry and exit, bright light, beams or rays, movement, propulsion, heat and energy. The object actually takes matter and converts it into energy. The object is meant to be encased, surrounded, mounted, supported, shielded and it is directional (see sketch page 11).

TECH'S

54 1/2 sketch pay 9A in on an overhead or chart. It may be only one aspect of the discussion.

These guys are technicians or technical persons of some sort -- program developers, scientist, experts, they are intelligent - early birds. They own idea of how, what, also can't agree on many issues of function, use, money, personnel etc.

WORKING PAPER

14 MAR 89

TASKER

1. Encrypted Coordinates: 130862/141105.
2. Tasking: Access and describe the target site at the above coordinates, with attention to the activity of special interest.
3. Required EEI:
 - a. Describe any activity of special interest inside the target building.
 - b. Determine and describe the purpose of the activity.
