Concerning the meeting reported in session one: items that were involved included operations, activities and affairs, manipulation, extralegal activities, boundaries, cooption of people not connected with the organization, arrangements involved in the operations, crossing into areas different than where they are/were, something similar to "smuggling," and "avoidance." Activities involved people functioning as "agents" of this group, money, finance, "commodities," and deals, exchanges and "bartering." Considerable travel was also connected with activities. A number of small and medium-sized grey and dark colored metallic objects were perceived that produced A/S of "weapons."

A person was perceived traveling (A/S in a passenger aircraft) to various locations "like" couriering, but also moving to small clandestine meetings. These meetings are ongoing--small meetings occur, people travel on a repetitious basis to carry out culmination of plans which will be fairly climactic. A/S a sense that a "delivery" of large relative proportions will be made. Further sense that ultimately several people from this location will meet together with people already in place in the subject country (A/S US) and transfer possession of a large volume of something(s) to the people already there.

A/S

54/2 Persons traveling (A/S in aircraft) to various locations  
 "like" couriers but also moving to small clandestine meetings  
 This is ongoing - small meetings occur, people travel on a  
 repetitive basis to carry out continuation of plans which  
 will be fairly dramatic.  
 A/S A sense that a "deliberate" of large relative  
 proportions will be made.

80/A/S - concept of drugs intrudes, confusing  
 possible signal like contact

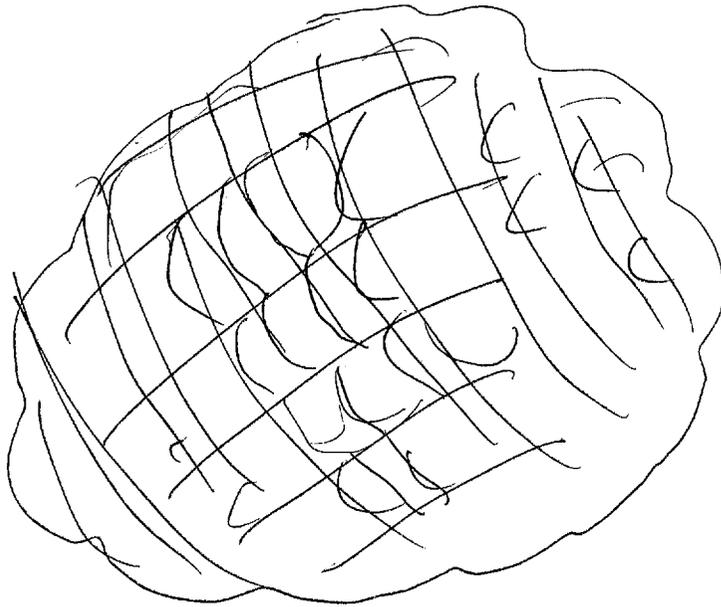

54/2/A/S Sense of ultimately several people from  
 this location meeting together of people  
 already in place in subject country  
 (A/S US) and transferring possession of  
 a large volume of something or something  
 to these people already there.
