SUMMARY OF INFORMATION

During this session, I focused on the television screen. I could see men sitting around the round room watching the screen. I could see aircraft on the screen. I could also see a planet on the screen. The planet had a ring around it.

I kept seeing circles and rings.

The people that work here are highly intelligent and they are brought here to work for a special reason. The people are technically and scientific oriented. This is a military base that deals with very sensitive information.
