Site is a building with bright light, very old air.
There is a lot of equipment, measuring equipment
(gauges, dials, etc.) along the walls. The
"room" has a medicinal smell and
containers of ~~solid~~ plastic containers. People wearing
hooded, reflective visored suits with padded
"brodie" type shoes work in the area. ~~They~~
They manipulate the contents of the room
using such safe-guards as pass tubes. It's
almost like, Adv. a BW facility, or Adv
a facility that using volatile nerve gas
elements.
