19) Research

20) Search

21) Techniques used in ESP

22) Telepathy / mental transference

23) Terminology

24) Theories of ESP

25) Viewing (remote viewing)

    d. FORMAT: Both data entry and information retrieval will be accomplished using the an input screen similar to the following (new fields may be added as the program is finalized):

```
||===================================================================================||
||   TITLE: _____           ||
||                                                                        ||
||  AUTHOR: _____    DATE: _____             ||
||                                                                        ||
||PUBLISHER: _____    IN OUR LIBRARY: __              ||
||===================================================================================||
||ENTRY DEALS WITH: (Place an X in every category which applies||
||                                                                        ||
|| Animal ESP _   Auto.Writing _  Bilocation _  Biological _  ||
|| Channeling _   Clairvoyance _     Dowsing _    ESP aids _  ||
|| Evaluation _        History _   Levitation _       OOBE _  ||
||    Persons _            PK _  Poltergeist _  Prediction _  ||
|| Reincarnat _       Research _       Search _  Techniques _ ||
||  Telepathy _    Terminology _       Theory _     Viewing _ ||
||===================================================================================||
```

       1) Data entry will be accomplished by filling out the blanks with the appropriate data and appending the record to the database.

       2) Information retrieval will be accomplished by filling in those fields which are desired or known and pressing a request button for the record, the list of records, or for a notice that no such record exists.

5. PROJECTED WORK SCHEDULE: The following proposed time schedule should allow for unforseen interruptions:
