- E. SESSION SUMMARY

The target is a structure which is low on the bottom and high on top. A long and linear thing may be found here in an upright position. The structure may have stairs leading to the high area. It is squared off and yet rounded on top. It is very powerful and is somehow a window for seeing into the universe or higher consciousness. It is powerful inside and was constructed as a vortex for natural energy purposes although it could be considered ancient in age. In other words, there is a natural universal connection with higher consciousness at this place which can involve observations and communications. Trees, water or snow may be found at the site. The structure is located near the ocean.

TASKING SHEET

SOURCE NO: 025

DATE: 16 FEB 93

SUSPENSE: 17 FEB 93

1200 HRS

1. PROJECT NUMBER: 93-164-P

2. METHOD/TECHNIQUE: Method of Choice.

3. BACKGROUND:

----This project marks the start of a new proficiency series that is based primarily on a target of "structures/configurations."

-- These configurations can be anything. However, buildings/structures will be dominant.

-- Targets will emphasize key elements that are unique or distinct. They will be composed of specific shapes, contours, configurations. Some targets may have multiple similar shapes/features.

-- Targets may be commercial, governmental, military, or other, either historic or contemporary.

----Some targets will have a beacon person; others will not.

----There will be 10 targets in this series. They will be randomly selected from the target pool.

4. ESSENTIAL ELEMENTS OF INFORMATION:

----Describe/sketch the key features/shapes/contours of the target.

----Describe/sketch spatial relationships or relative sizes of the target features.

----Determine other features (colors, background), if dominant.

----Determine the purpose of the target structures.

COMMENTS:
