- E. SESSION SUMMARY

The target is a structure. I feel this is a place where people once had trauma. The colors off-white and light blue are present. Stone and paint may be found at the site. The structure is high or tall with large holes cut out where a person can stand and view the green and reddish earth landscape. This may be a reflection of a past civilization or it is a land which once had kings and queens. Mysteries or psychic energies can be explored and found at this site. The structure may be considered a type of ruin which people visit to date.
