E. SESSION SUMMARY:

The following was perceived during this session:

1. A massive, square-shaped section of earth or land moves. It's as if someone has squared-off a section of earth and moved it laterally; i.e. straight out and down.
2. Something significant will appear (in the press?) relating to a little known species of aquatic animal or fish. It feels like the critter lives in freshwater.
3. Something symbolic relating to a single, Eskimo-type male. He is seen poised with a spear; it's as if he is frozen in place.

*Viewer note: this session was extraordinary vivid; definitely  
filed for #s 1 & 3.*
