SUBJECT: SESSION SUMMARY (C/SS)

SG1J TO: DT-S (ATTN: [REDACTED])

1. (S-SS) Statistics: Viewer: 018
Session date: 20 OCT 87

2. (S-SS) This session was a follow-up to the session conducted on 16 OCT 87. Impressions gained from the targeted site include:

a. Tasked to give a description of the inside of the site, the perception was of a circular or semi-circular object (see sketches, pages 2, 7 & 8). The object appears to be yellowish or greenish in color on its flat, circular top, and black on its vertical sides. Low on the vertical sides, it seems to be made of struts or legs. Higher on its vertical sides, it appears to be solid.

b. Activity perceived at the site consists of a group of people sitting around in a circle, seriously engaged in comparing with one another, discussing, and making decisions.
