PROJECT SUN STREAK

27 Feb 90

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	5198 (Tng)	SESSION NUMBER:	1
DATE OF SESSION:	27 FEB 90	DATE OF REPORT:	27 FEB 90
START:	0910	END:	0941
METHODOLOGY:	CRV	VIEWER IDENTIFIER:	052

1. (S/STD) MISSION: To describe the target site (Search for survivors of a ship sinking) in Stage 2 terminology.
2. (S/STD) VIEWER TASKING: Site has neither encrypted nor geographical coordinates provided, so target # was used for cueing. -
3. (S/STD) COMMENTS: No Physical Inclemencies. 052 "felt" very little site contact, but produced an excellent session, nonetheless. Post session discussion centered about the "feeling" of parapsychological functioning, strictly from the Viewer's personal perspective, and how this "feeling" is very subject to normal human variations. The unchanging nature of the CRV structure was explained in this light, showing that, in those times when your "feelings" won't produce faithful site information, adherence to proper structure will. The transcript was reviewed completely in this new light, to illustrate the truth of this rule.
4. (S/STD) EVALUATION: *3*
5. (S/STD) SEARCH EVALUATION: N/A

WORLD NEWS

SEARCH AT SEA

Fishermen join search for survivors of the Dona Marilyn, which sank during Typhoon Ruby Monday 300 miles southeast of Manila

with about 500 people aboard. More than 140 survivors managed to reach small islands after abandoning the ship. Details, Page A60.
