WORKING PAPER

Target #: 0158
Date: 18 June 90
Time: 0940-1530
Viewer: 052
Session: 01

SUMMARY OF INFORMATION:

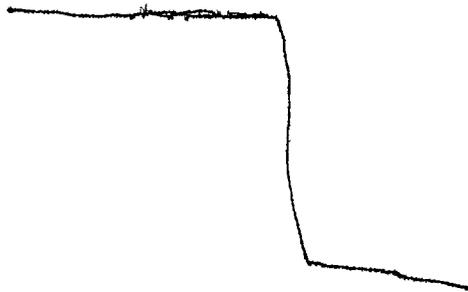

The target is structures and land. I AOL/S this site to be a greenhouse. It has pointed angles and diagonals, like a pyramid shape or a teepee. It is unbearably hot and humid inside. There is a hollow/echoing sound inside. There are palm trees inside. There is a male person working in this structure and sweeping the floor.

Greenhouses

(Near Halfmoon Bay, on Highway 92)

Directions: SEE MAP; Take Ravenswood to Middlefield; North on Middlefield to Marsh Road; Right on Marsh Road; take Highway 101 North (towards San Francisco); take Highway 92 West towards Halfmoon Bay; as you travel on Highway 92 watch for a large group of greenhouses on your left; a little before the greenhouses is a little flower and plant shop; it is safest to park in the parkinglot in front of this shop and walk down to the greenhouses, because the traffic can be bad there; however, if the traffic is not bad and if you are brave you may drive down 92 untill you are parallel to the greenhouses and park just off the road. Walk over to the greenhouses.

Target: The target is this group of greenhouses. The greenhouses are located in a long valley. There are rolling green hills on each side of the valley (running roughly from East to West). The greenhouses have geometrical shapes. They are constructed of square panes of glass fit into either wood or metal frames. Many of the side walls of the greenhouses are connected, and the roofs are kind of triangular shaped. The greenhouses are surrounded by fields with green plants growing in them. Through the glass panes plants can be seen growing inside the greenhouses. There are white doors with nine panes of glass set in the top half of them at the ends of the greenhouses.
