 ...ly, magnifying Oliver
 Wendell Holmes's more modest as-
 sessment that its State House was
 "the hub of the solar system." Orig-
 inally a scrawny neck of land poking
 seaward, Boston fleshed out during
 the 19th century as developers filled
 in the marshy acreage of Back Bay
 and the South End. Foundations for
 the city's schools, hospitals, and great
 financial institutions were laid then
 or strengthened.

Annexing communities like East
 and South Boston, Charlestown
 and Roxbury, Boston left independent-
 minded neighbors such as Cambridge
 and Brookline to themselves. Today
 an encircling ring of a hundred cities
 and towns dwarfs Boston proper,
 whose 660,000 people are only part
 of the more than three million inhab-
 itants in the metropolitan area.
