METHODOLOGY: CRV

VIEWER IDENTIFIER: 032

1. (S/NF/SK) MISSION: Access and describe in a stage one sense training target # 48, Williamsburg, VA.

2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 372448/764248.

3. (S/NF/SK) COMMENTS: Perfect session, immaculate adherence to structure throughout. O32 paced himself perfectly throughout the session, particularly in stages 1 and 2. His stage 3 sketching was excellent. All his stage 4's can be attributed to the site. Of note are O32's stage 4's of: historic, old, people shopping, spending, walking, looking, interested, amazed, remembering and gathering information. At the end of the session O32 was told to move to a position 20 miles above the site and to report what he saw, he executed the sketch on page 11 which is an accurate rendering of the Virginia coastline. This sketch is of stage 6 quality. O32 was then moved to a position 40 miles above the site where he reported that the site was in the northern hemisphere, the eastern part of North America. The session ended with O32 attempting a stage 7 (see page 12). He is still locking his mouth in an open position, which prevents consonants from forming. This should be overcome with practice.

COLONIAL WILLIAMSBURG

In this painstakingly restored capital of Virginia, eighteenth-century America lives again for the twentieth century to observe and enjoy. In preparing the painting, the artist has omitted many trees to better show buildings and streets. Only those structures rendered in color are parts of the historic area.
