Kennedy Center For The Performing Arts

A National cultural center situated along the Potomac river, the Kennedy Center was completed in 1971 and was created as a result of the National Cultural Center Act of 1958. which mandated that a performing arts center be built to serve the nation as well as Washington DC.

Roger L. Stevens, chairman of the board of the center had the struggle to raise private funds and then to elicit matching funds from Congress for a total of 70 million dollars. In 1964 Congress dedicated the center as the sole official memorial to the late John F. Kennedy.

The center houses four theaters: an opera house, a concert hall, the Eisenhower Theater and the Terrace Theater. The building is 630 feet in length with an exterior of white Carrara marble, a gift from Italy in memory of JFK. The interior of the center and surrounding park display gifts of art and commissioned works of many nations. The Kennedy Center presents theater, dance, music and opera performed by leading artists from throughout the country and around the world. It also offers a wide array of free performances and public service programs.
