- E. SESSION SUMMARY

The plane may be traveling soon in an effort to reach its target which is currently guided in a northern direction towards its final destination. Radio signals or calls will maintain the operation. This operation may occur shortly in order to obtain cargo and perhaps suspected individuals. The cargo consists of a delicate substance and criminal activity is involved in this pursuit. The cargo will not be delivered as intended.

This pattern is present at site; seems to be visible from the air; appears knit-like or made of fabric.

Rear of the aircraft

I see the section from engine backward.

- Keep focusing in on rear of air craft
- Tail section
- cone shaped features

* Found in central cargo area

- cross section of tubes
- pin like devices extend into interior of tubes from outer surface

- tubes are banded together
