MEMORANDUM FOR RECORD

SUBJECT: Security Review of "THE MIND RACE" (U)

1. (U) Reference; THE MIND RACE, Understanding and Using Psychic Abilities; by Russell Targ and Keith Harary; Random House (Villard Books); 1984.
2. (C) Ref: Page 5, paragraphs 3 & 4; Russell Targ specifically states; "The U.S. government has been supporting a psi research program at SRI International (formerly Stanford Research Institute) in Menlo Park, California, for more than ten years. This multimillion-dollar program has been exploring techniques to increase the accuracy and reliability of a human perceptual ability known as remote viewing." "Both authors have been active in laboratory psi research since the early 1970's, at SRI and elsewhere."
3. (S/CL-4/NOFORN) Ref; Page 15, paragraphs 2 & 3; and Illustration page 16; Specific reference is made to a remote viewing session with illustration which was performed by Remote Viewer #01 (CENTER LANE), no name or source is mentioned.
4. (S/CL-4/NOFORN) Ref; Page 59 & 60, paragraphs 6, & 1, 2, 3, 4, & 5; and Illustration page 61; Specific reference is made to a remote viewing session with illustration which was performed by Remote Viewer #36 (CENTER LANE), no name or source is mentioned.
5. (S/CL-1/NOFORN) With regard to the above paragraphs; it is the opinion of the undersigned that there is no direct security threat towards CENTER LANE Project by the book as published. However; it is the opinion of the undersigned that the original agreement with Dr.'s Puthoff and Targ stipulated that under no condition would any material produced or developed during training at SRI-I be released to anyone without specific request and approval of the CENTER LANE Project Office. To my knowledge such approval was never requested or obtained. This event could thereby be construed as a "Bad Practice" with regard to security, although in itself not a specific security breach.
