9 October 1979

MEMORANDUM FOR THE RECORD

SUBJECT: Space Requirements for Project GRILL FLAME

1. At 0830 hours, 9 Oct 79, the following named individuals attended a meeting in BG Smith's office:

BG Smith, DCG-S&P
COL White, ADCSOPS-HUMINT
Mr Jennings, Special Assistant (OPS)
LTC Watt, INSCOM GRILL FLAME Project Manager
Mr Silvano, Chief, HSD

2. The purpose of the meeting was to discuss the physical space requirements for project GRILL FLAME.

3. COL White presented a short update to BG Smith on the status of the project, including the fact that MG Rolya had been briefed on the subject matter and has approved our concept.

4. LTC Watt explained that the acoustical problem related to current location has been so great that it has adversely affected over 30% of the training sessions. Further, he explained that the project has not been allotted sufficient physical space to properly carry out the assigned mission. LTC Watt stated that minimum space requirements are as follows:

- a. Admin/Ops Office
- b. Project Manager Office
- c. Office for Analysts
- d. Training Office
- e. Conference Area
- f. Three separate session rooms
- g. Control Room

5. BG Smith concurred with the proposal but was concerned that adequate space could not be made readily available. He presented two options:

- a. That space in the HQ Support Detachment be made available after necessary repairs are accomplished and the troops move out or

(c/sigsec)

b. That area occupied by 91st MI Bn be made available if and when the Bn relocates. He directed Mr. Silvano to gather ~~up~~ the facts covering these two options and that we should meet again during the first week of November and discuss where we stand and decide on appropriate action(s) at that time.

MURRAY B. WATT
LTC, MI
INSCOM Grill Flame
Project Manager
