SUMMARY OF INFORMATION

The main gestalt of the site is structure. Other gestalts include water, land and motion. The structural elements of the site evoke such descriptors as black, tall, narrow, curved, slick, big, smooth and slick. The land is green, brown and open. At this point I experienced a strong AOL of  this AOL was caused by the true concepts of tall, curving, many, modern, black airy and curved and the AOL/S of mountain.
