PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

---

PROJECT NUMBER: 8820	SESSION NUMBER: 01
DATE OF SESSION: 22 SEP 88	DATE OF REPORT: 22 SEP 88
START: 1030	END: 1130
METHODOLOGY: WRV	VIEWER IDENTIFIER: 079

---

1. (S/NF/SK) MISSION: Identify the current location, destination of the vessel [redacted] suspected of carrying a load of illegal drugs. Determine when the [redacted] will deliver its load of illegal contraband in the form of drugs.

2. (S/NF/SK) VIEWER TASKING: Viewer 079 tasked with requirements reflected in para 1. Viewer 079 was front-loaded with all available operational data related to this case.

3. (S/NF/SK) COMMENTS: No inclemencies noted. Every effort is being made to treat the viewer as a collector by providing all available operational data. Responses are being keyed to specific requirements without a great deal of elaboration. The purpose is to determine (what we suspect) that specificity will increase accuracy of the information. A Summary of Information is attached.

4. (S/NF/SK): EVALUATION:

HANDLE VIA SKEET CHANNELS ONLY

Sess: 01

SUMMARY OF INFORMATION

SG1A The ship [ ] is currently located off the northwest coast of Columbia at a point estimated as being about 100 miles due west of "Pta Marzo", Columbia. See ENCLOSURE 1.

SG1A In about three to six days (during the week of 25 September 1988), the [ ] will be north of the Venezuelan coast at a location estimated at 100 miles south southwest of Grenada and on a direct line to "Pto Hierro", Venezuela. SEE ENCLOSURE 2.

SG1A The [ ] will then set sail for Mexico. It will receive instructions as to its actual destination while en route.

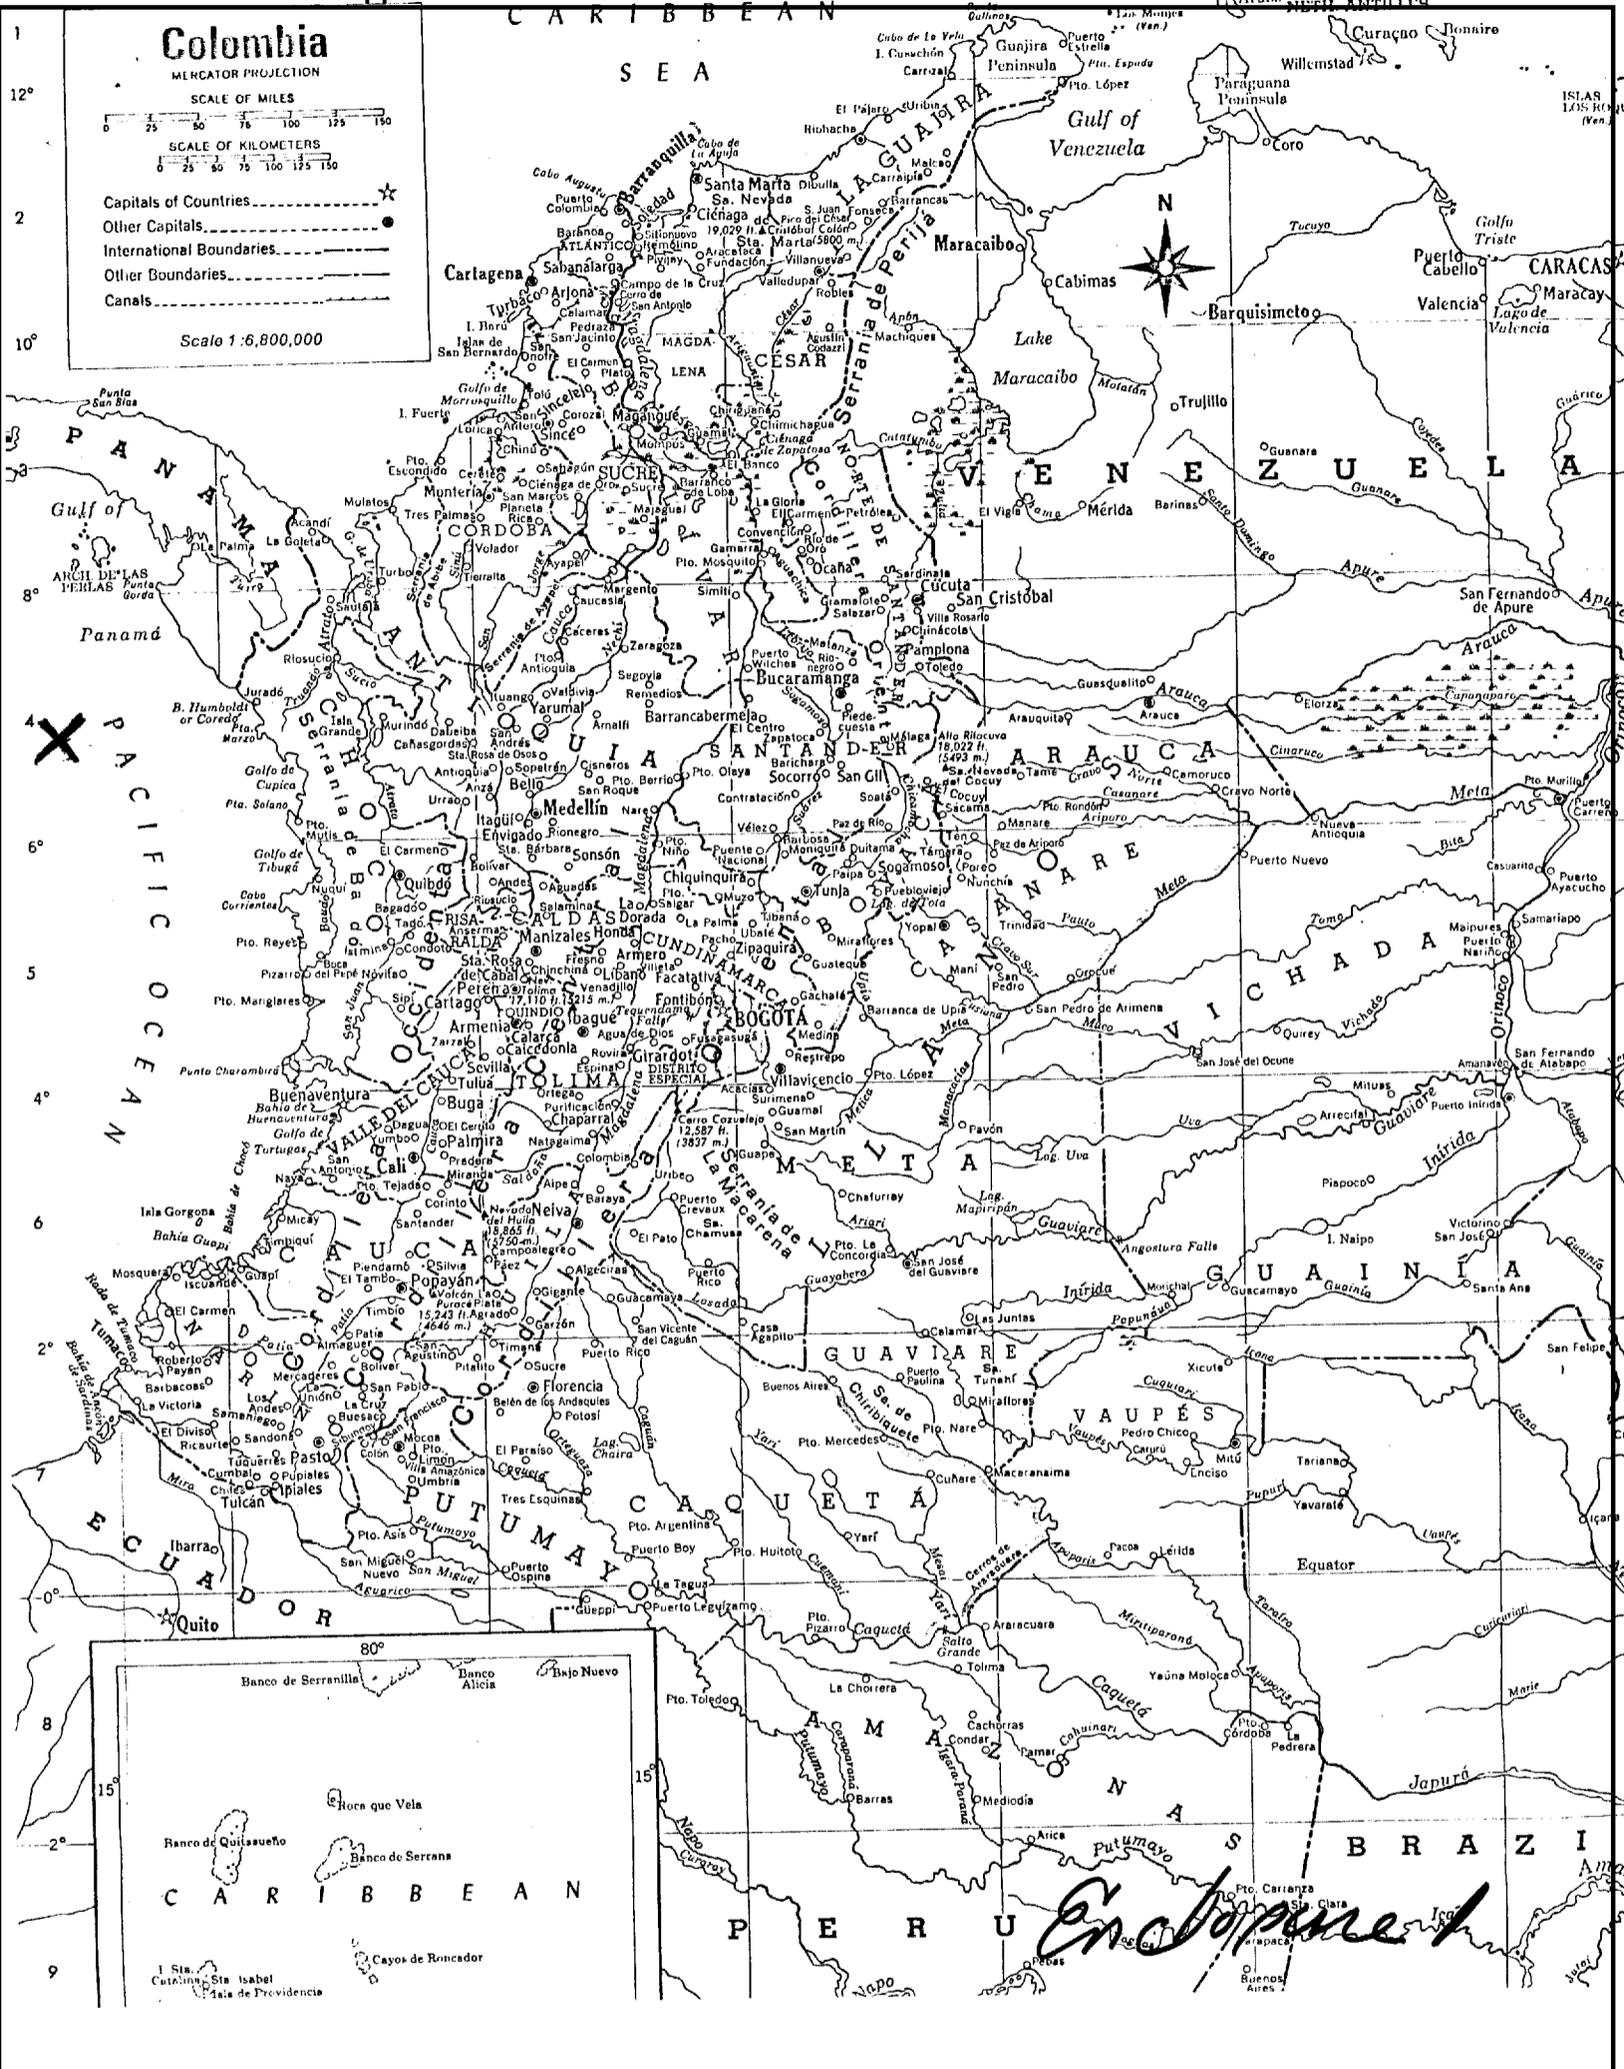

Two probable ports-of-call where the drugs are likely to be unloaded were indicated as follows: The first, at a location described as east of the Province of Quintana Roo, Mexico, and in the vicinity of "Pta Nohku" (Pta Nohku is immediately north of Pta "Herrero"); the second location was described as "Tampico" which is on the southeast coast of the Province of "Tamaulipa" in Mexico.

The phonetics of a name "described as "Weislan" surfaced during the latter portion of the session. Its significance could not be readily determined.
